

# Montague L Meyer Pension Fund

## Implementation Statement

**Barnett Waddingham LLP**

November 2020

## Purpose of Implementation Statement

This Implementation Statement has been prepared by the Trustee of the Montague L Meyer Pension Fund (the "Scheme") and sets out:

- How the Trustee's policies on exercising rights (including voting rights) and engagement policies have been followed over the year.
- The voting behaviour of the Trustee, or that undertaken on their behalf, over the year to 30 April 2020.

## How voting and engagement policies have been followed

The Scheme invests entirely in pooled funds, and as such delegates responsibility for carrying out voting and engagement activities to the Scheme's fund managers.

The Trustee reviewed the stewardship and engagement activities of the current managers during the year and was satisfied that their policies were reasonable and no remedial action was required during the period.

Each year the Trustee receives and reviews voting information and engagement policies from the asset managers, which they review to ensure alignment with their own policies, alongside preparation of the Implementation Statement.

Having reviewed the above in accordance with their policies, the Trustee is comfortable the actions of the fund manager is in alignment with the Scheme's stewardship policies.

## Voting undertaken on behalf of the Trustee

The Scheme's equity investments are held through pooled diversified growth funds managed by BlackRock and Schroders. The investment managers of these funds vote on behalf of the Trustee.

The table below provides a summary of the voting activity of undertaken by each manager during the year.

\*Data is the most recent available at the time of preparing this report which is in respect of the year to 31 March 2020

There are no voting rights attached to the other assets held by the Scheme and therefore there is no voting information shown above for these assets.

BlackRock use Institutional Shareholder Services (ISS) and Glass Lewis as their proxy voting advisors, with their recommendations used to help BlackRock, alongside in-house analysis, to determine voting decisions. Schroders use ISS as a proxy voting advisor, with their recommendations, alongside additional in-house analysis, used to help Schroders make their voting decisions.

## Significant votes

Data on significant votes was requested from BlackRock and Schroders. However this has not been provided in a usable format. The Trustee's investment consultant is liaising with the managers to improve delivery of the data in future, and we understand that the managers are working to improve their disclosures.

The Trustee believes that there is very limited scope for engagement in relation to the LGIM Liability Driven Investment funds, and therefore there is no information shown above for these funds.

Based on the information received, the Trustee believes that the fund managers have acted in accordance with the Scheme's stewardship policies. The Trustee is supportive of the key voting action taken by the fund managers over the period to encourage positive governance changes in the companies in which the funds hold shares.

The Trustee and its investment consultant are working with the fund managers to provide additional information in future, including where indicated above, in order to enhance their ability to assess the fund managers' actions.
